

GENERAL MARSHALLING POINTS

- "SMILE AND WAVE"!
- DO MAKE CLEAR – USING ARMS ETC – WHICH WAY RUNNERS ARE TO GO. REMEMBER, YOU KNOW THE ROUTE. THEY DON'T!!
- IT'S VERY EASY TO GET CAUGHT UP IN THE RACE. DO STAY ALERT TO THE SPECIFIC HAZARDS OF YOUR MARSHALLING POINT...
- ... AND DON'T BE SHY TO CALL/SHOUT TO RUNNERS WHAT YOU NEED THEM TO DO
- WE ARE NOT OFFICIALLY ALLOWED TO STOP TRAFFIC. INSTEAD, PERSUADING, ASKING NICELY, SMILING AND BEING QUITE INTERVENTIONIST WITH DRIVERS DO MUCH OF THE TASK.
- MAKE SURE YOU KNOW WHO TO CONTACT IN CASE OF EMERGENCY OR RACE INFRINGEMENT (FROM BRIEFING)

Marshal Positions M2 – M5

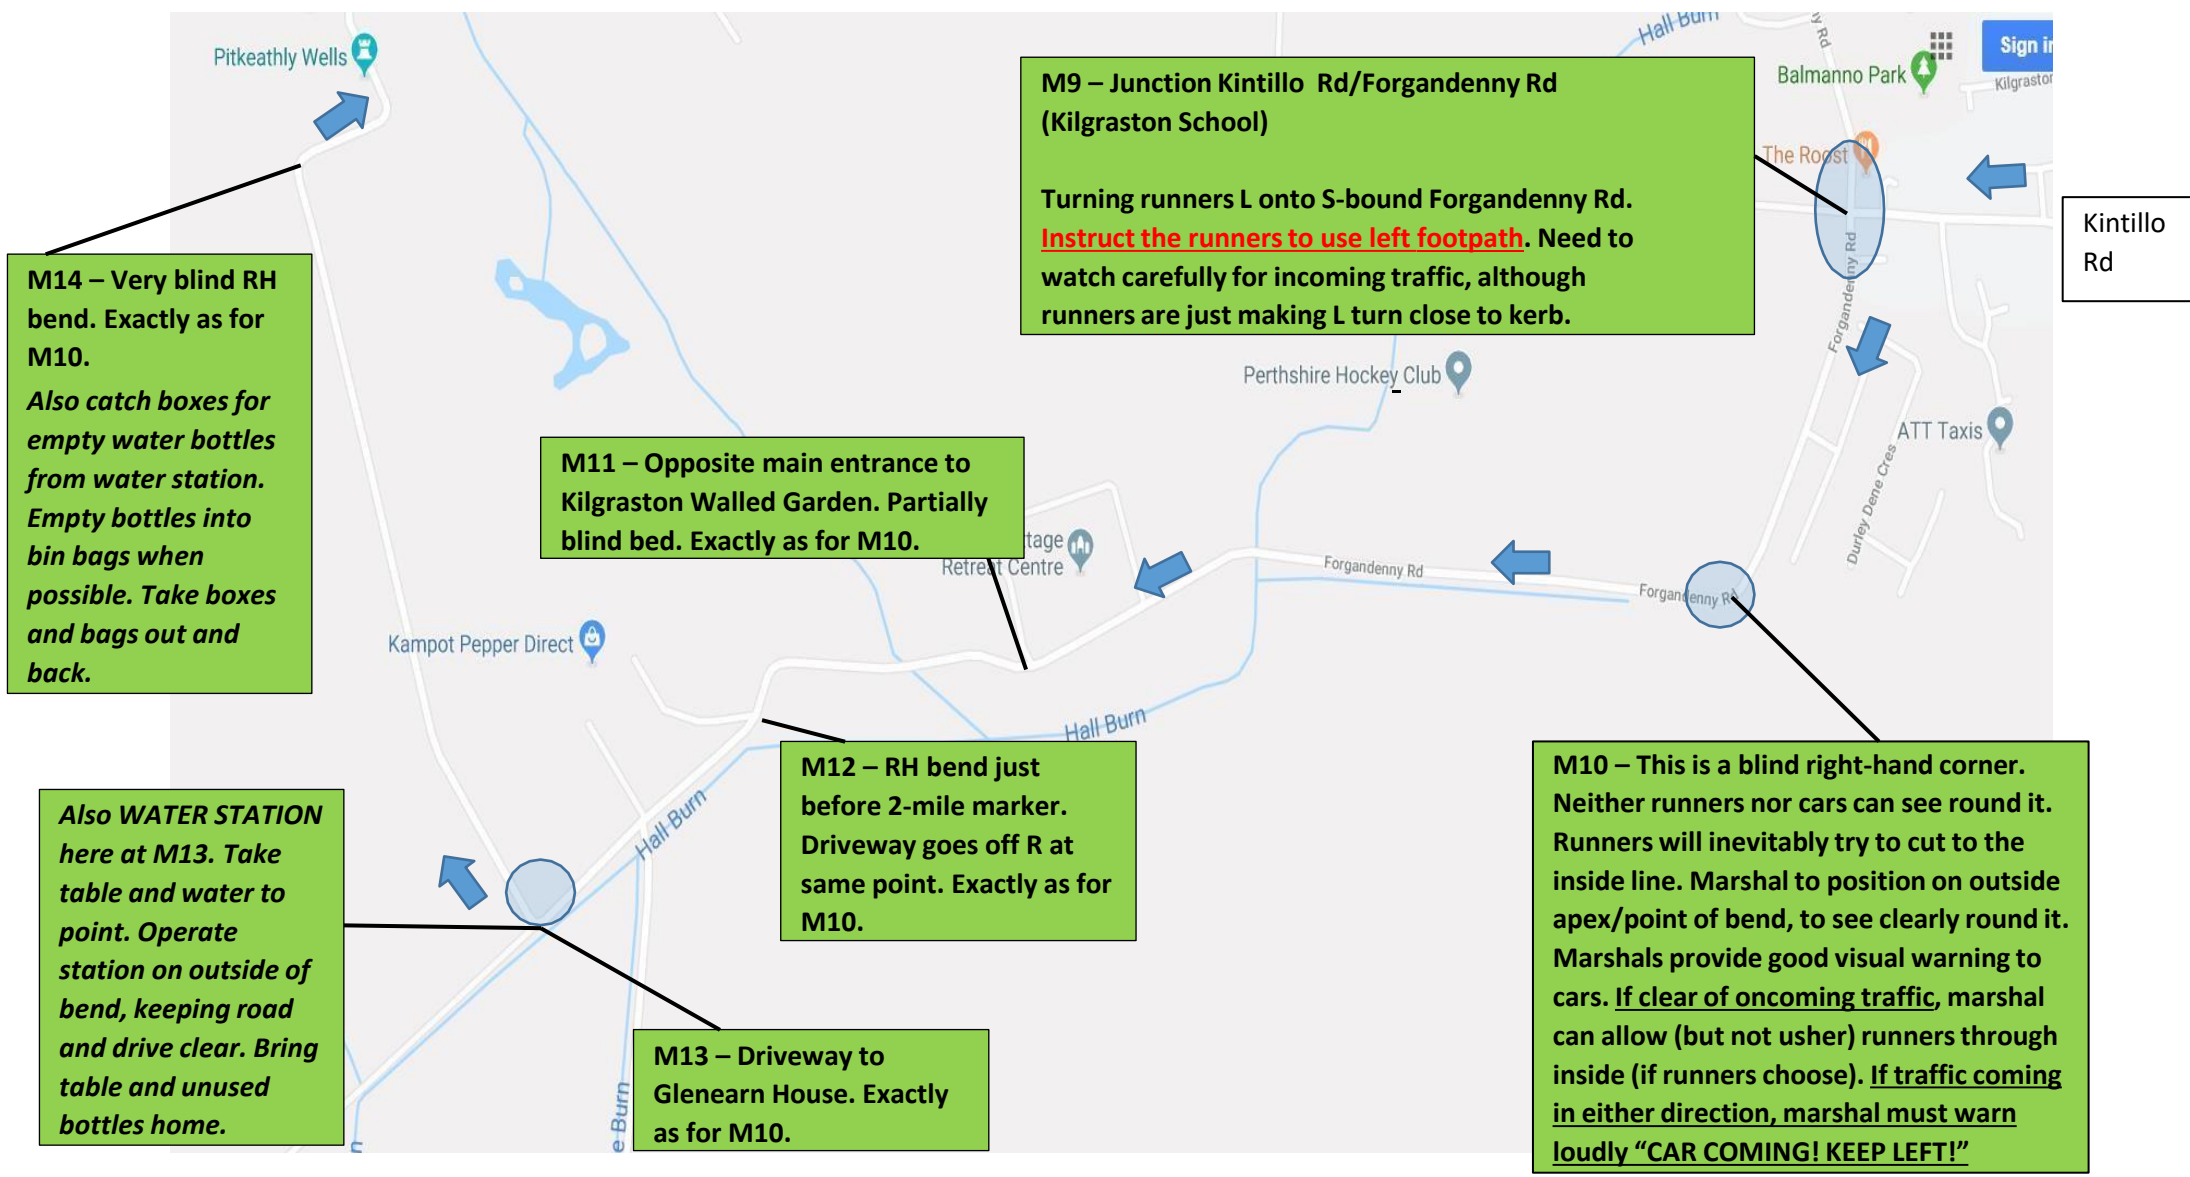

Marshal Positions M6-M8

M7 - Ensure runners take the curve of the road bend and NOT THE PATH. Ideally three marshals, positioned at M in inset diagram. One person at head of the path. One person on the turn. Then, if available, one person directing runners to **keep to the right footpath going down Kintillo Rd; if not, latter marshal asks runners to keep R at the road. On return, runners should be kept left, again using the road and NOT THE PATH.**

Marshal Positions M9 - M14

M16 – Runners approach main road on L, from Country Loop. They are to turn R, and stick to R on turning onto The Straight. M16 crosses runners over to the R 50m before the turn R. Needs to watch for W-bound cars turning L (south) onto Country Loop, crossing runners only when safe. Runners must stay hard right after crossing to R.

Marshal Positions M15 – M22

M18 – see note below

M19 – see note below

M20 – see note below

M21 – switch/cross runners from R of road to L – watch both directions clearly! Runners will want to cut to inside line but must not here!

M17 – Busy B935 T-junction. Sending runners round R turn onto A935 The Straight. Must keep runners tight to inside of R turn. Instruct runners to keep right and close to verge along B935.

M15 – This is a blind right-hand corner. Neither runners nor cars can see round it. Runners will inevitably try to cut to the inside line. Marshal to position on outside apex/point of bend, to see clearly round it. Marshals provide good visual warning to cars. If clear of oncoming traffic, marshal can allow (but not usher) runners through inside (if runners choose). If traffic coming in either direction, marshal must warn loudly “CAR COMING! KEEP LEFT!”

M22 – Heughfield Road crossing. Be mindful of traffic coming in/out of junction. Cross runners over Heughfield Rd safely.

M18, M19, M20 – see next page for where to stand for these positions on The Straight. There are 2 tasks here:

- 1) To alert cars – often fast – to oncoming runners on the wrong side of the road (left as cars see them). Your hi-viz being there helps, as do the warning signs we put in. Alas drivers do not know why you are there and assume the signs do not apply right now. So the new approach is to hold aloft (and shake slightly) a **CAUTION DRIVERS! RUNNERS ON LEFT!** sign to each westbound/oncoming car (ie from Bridge of Earn end of The Straight) to make drivers realise this is happening NOW. First runner will be reaching the W end of straight at ~7:43, so please start holding aloft then (even though runners will not have reached you yet)! Take sign from Institute.
- 2) Keep runners right in to R side of the road (as they run). **Instruct verbally runners to keep into the right**. Do not stand outside runners to form a corridor for them to pass through – too risky and blocks road too much. They should pass traffic-side of you but in close to the edge.
